A Tribute To Cisco Carter

The life that counts must toil and fight,
Must hate the wrong and love the right,
Must stand for truth by day and by night,
This is the life that counts.

The life that counts is linked with God,
And turns not from the cross or rod,
But walks with joy where Jesus trod,
This is the life that counts

We the faculty, staff, and students of University High School extend our sincere sympathy to the family of our friend and co-worker Cisco Carter. Cisco was one of those special individuals dedicated to fulfilling his professional responsibilities as social worker while at the same time willingly lending his expertise and support to school activities.

The love and caring Cisco demonstrated to all of us will be greatly missed. Our lives have been touched by his gentleness and concern and we will honor his memory by following the many good examples he set for us.

Our hearts are filled with sadness at this time, but we know that the will of our Heavenly Father must be carried out. Everything He does is good and just.

May God comfort and strengthen you during this time of sorrow
You have our fervent prayers.

Done by the order of the faculty, staff, and students of
University High School.

4/22/69 - AND?!

I am a Taurus who loves music-either singing, playing or listening. People describe me as lovable, considerate and patient. I love people in general and admire those who are independent-minded and are very ingenuitive (someone who always has a new idea). I hope to become a Psychologist someday, maybe to help teenagers who can't cope with life. I would like to thank all my teachers for their individual care and friendship throughout the years, Especially Mrs. Gironda. I have never met a teacher who was more like a friend and a mother. I'll always remember you, because you helped me make a difference in my education and myself. To my peers, Ronice, Donna Lawanna and "LU" to name a few. I wish you people a hell of a good life! Stay strong and be prosperous, and most of all, LOVE YOURSELF.

To D.C.P. (Da Crew Posse): I want to say PEACE! (unless you're going to E.C.C. with me!) But seriously, you guys have made me realize what true friends are. I have learned a lot from you guys and I hope you learned from me. (I don't know what!!) We've been through thick and thin, water and ice, and even Taiwan and The Fellas. I wish you much success in the future, and in 98, I'll pay you all your money back, except Dave.

"No, hold up, Marv, Hold Up"

God Bless You, And May You Plant

Marshall Alston

Marshall Alston Tico or Mr. Potatoe Head Virgo, born 8/27/70 loves singing, bowling, eating, and the girl of my dreams (whomever she is)!!

The past four years at University have excelled my educational development, introduced me to "bigger and better" horizons, and have served as my inspiration necessary to achieve my future goals and aspirations. The complete fulfillment of my educational endeavors is only one factor of my stay at University. The other contributing factor is the social atmosphere of a close family knot created by many people.

MY SPECIAL TEACHERS: Mrs. Marie Gironda; My second mother and beckoning light. Mrs. Joylette Ransome; My senior "pick-me-up" and "chemistry" fright. Mr. Saul Hammerman; My everlasting pain and teacher I most want to fight!

MY "BUG-OUT POSSE": Aaron, Cephas, Davionne, Eugene, Genene, Marion, and Christine.

MY SECRET LOVES: Robyn, Tywanna and Lynda—my two sex goddesses—and Ronice—the girl who went through all the men in my family in one year!

Last I would like to thank the two people that have shown me what life was all about before, during, and after University. Mom and Dad, thanks for everything! I love you! Ya' done good!!

GOOD BYE AND GOOD LUCK TO THE CLASS OF '88

Booker Bruington

Booker Bruington Birth Date: 6/29/70 Zodiac Sign: Cancer other names: Book; Cosmo B, Busy Bee, Empster Friends: DA-Crew Playgirls Hobbies: swimming cycling and camping Idol: Eddie Murphy Career Goal: Aeronautical Engineer

Although I have been known as a pretty comical guy, I have shown some people how serious I can be? During my Sophomore year I met DA-crew. We were thought of as a rowdy bunch, but that soon changed because we proved that we could always get work done, whether foreign or domestic. During my Junior year I realized people saw me as a funny guy without acknowledging my true characteristics. In that year I found myself becoming more mature due to my teachers' influence. I realized that it was time to grow up as an individual and also as a student. I have shown im my Senior year, that I am a mature person. I still have fun in school, but I know where the limit is. I do not think that my 4 years here at University High would have been funnier without all the fellas of DA-CREW.

I would like to thank my mother for being an inspiration in my school years. I would like to give special thanks to SHIQUONNE who I had a meaningful relationship with. THANKS BONE.

*TO THE CLASS OF "88" GOOD LUCK IN THE FUTURE.
I'M OUT OF HERE PEACE.*

I thank God for helping me get this far and for the loving, understanding parents that he has blessed me with. My parents have been there for me every day of my life giving me every ounce of their love, care and support. They have taught me that there is no such thing as failure, and no limit to what I can achieve if I have faith in God and in myself. They have taught me to roll with the punches, and if I fall, to get up wipe the tears from my eyes and the dust from my pants and keep going. I love my mommy and daddy with all my heart. I love all my brothers and sisters; Tanya, Salema, Timmy, Sonny, Verna, Moony and Keith. I wouldn't trade any of them for all the gold in the world, I love them all. Mom you were the one who encouraged me to do my very best to achieve my goals in life. I am proud to call you "MOM" I LOVE YOU.

I'll let you in on a little secret: "you don't really get on my nerves." I hope I never have to find out what it is like not to have a sister. Steven I love you also in my own way, but I'm sure you already know that.

Larissa, Denise Angelette, and Erica, all of you know the true meaning of the word "friendship". Whenever I had a personal problem or a problem with my school work you listened to me and gave me advice. I did not always take it, but at least it was there for me. I will never forget the good and bad times, we, as friends have shared. Good Luck in the future to all of you. Your achievement means my happiness because all of you are like family to me. First of all I would like to thank my family which without their help and support my journey would have seemed longer. I would also like to thank all my teachers who pushed me to strive for success. A special thanks to: Playgirls, Genene, Lateef, Cephas, Marshal, and Comico, last but not least Eneesa.

To Latonya thanks for always being there when I needed you. You have helped me in many ways to discover that I am as good as anyone else.

To Lissette even though we had our major differences remember that I was only trying to teach you the right way.

To Davionne you did not get anywhere for starters because you thought you had it all. Also because you were on it too hard.

Last but not least to the class of '88 I wish you much success in all that you do.

Now that I have come to the end of my senior year I would love to thank one person to the utmost which is my sister. You have been more to me than just a mother. You have been a close friend someone I could talk to and share my problems with. I thank you sincerely. I knew you were behind me all the way.

Throughout these four years at University I feel as though I have matured and developed mentally and emotionally a great deal. I feel as though I owe this to my fellow classmates, my teachers and also my parents. Each one of you were very beneficial to my development and without you I would not be who I am today.

To my family, not only through these four years at University but all my life, you have stood behind me in whatever I chose to do. To my teachers, you have showed me what to do and what I have to do to get there. To The Class Of '88', I wish and hope all the success in whatever endeavors you choose follow.

I would like to show my love and appreciation to my Mommy. You have always given me love, affection, and direction, for which I will always love and respect you. To Daddy, although you were strict and sometimes, just plain unreasonable, it all paid off in the end. To Grandma, for always believing in me. I also want to thank my brothers and sister, for just being there. I would especially like to recognize Denise, Adrea, Robin and Ronice for being the dear friends they were. Finally I would like to give special thanks to: Mrs. Richardson, Ms. Wing, Mrs. Gironda, Ms. Stridachio, Mr. Brown, Mr. Green, and Mr. Charles, you've all inspired me.

I would like to give thanks to God, without whom all things would not be possible.

During my first two years at University High I really messed around not doing my work to my full potential. But during my Junior and Senior year I've tried to strive toward better things in school and life. Even though many see me as a cool person, I've always been known to get any job done whenever it was called for. I could often be found coolin with the fellas of Da Crew Posse and my own boys, whom I'd like to extend a message of utmost success in the future.

Peace . . . Party People Ha! Ha!

See you Later.

BEST LUCK TO THE CLASS OF "88"

Christopher L. Hurd

Throughout the past six years I have grown to know many people I have seen one class follow the other and have become closely associated with their members.

To the class of 88, it has been a long time, we have paid our dues we have gone through the struggles, and we have finally achieved our goal.

I, therefore, would like to wish you all good luck in the future and hope that you are able to follow your dreams.

Peace

My six years at University High have not been perfect, but they were some of the most rewarding. I have not only grown academically, but I have developed close friendships that I will always hold dear. Those people who stand out the most in my mind are Tywanna, Eneesa, Michelle, Sabrina, Aaron, Lateef, and Martin. I will miss you all very much.

I would like to thank my family for all of their support. All of you have played an important role in my growing process. I would just like to let you all know that I will always Love You.

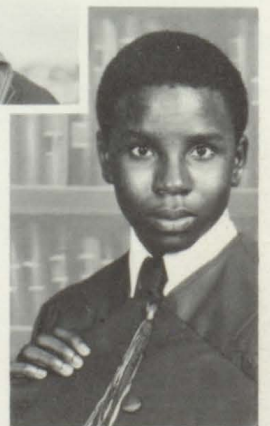

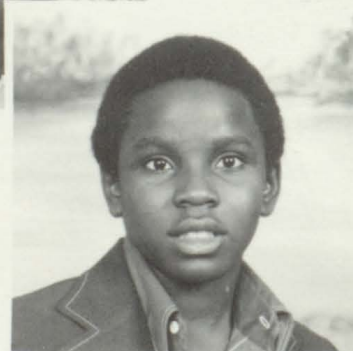

Finally, to thee entire class of '88', I leave you one thought "Be all you can be and always work to the best of your ability" because a wise man once said:

"It is not a disgrace not to reach the stars but it is a disgrace to have no stars to reach"

During my high school years of perseverance at University, I have experienced educational endeavors which have taught me that education is the key to success. I will continue to be a very motivated and career orientated individual.

The past four years things have not been easy. There have been many trials and tribulations but I survived, thanks to my grandmother. She has stuck with me through the worst times in my life and showed me that there was a light at the end of the tunnel. She has allowed me to grow and make mistakes, and believe me there has been many, and still love me anyway. God gave me the most precious gift of all in my grandmother, and I will always treasure her. Jean thank you for standing by me when I had no-one else. I will always be grateful and love you for what you have done for me.

GOOD LUCK TO THE CLASS OF 87.

Erin M. Lawence

Once again the time has come for me to gather my belongings and move on to my next level of education. Here at University High I consider myself blessed to have been part of a family so caring and dedicated to success. To my grandmother and the rest of my family, you have been very supportive and always there when I needed you. Thanks!

I can't believe it! I have reached the stage in my life in which I will be graduating. The past four years at University have been an experience I will never forget. I could not have made it without God, who gave me the strength and will power to excel myself in whatever I did. To my parents, Nate and Jean, I thank you for providing me with what I needed and wanted. To my sister, Niesha, we have had our disagreements but I love you and would like to tell you that you have been a great influence in my achievements in life.

As Carol Burnett said, "I am so glad we had this time together." I have enjoyed my six years at University, but I am glad to leave. U.H.S has taught me that part of growing up is learning to do for yourself, and learning to be yourself. I am confident that I will be able to succeed in the "real world" and I will make my family, my school, and myself proud. I will miss everyone at U.H.S especially Kisha, Stino, Shorty, MR. Booker, Noir, Garga, Vanilla Bear, Mrs. White, Auntie, and the whole "DA CREW POSSIE". Thanks MOM for treating me like an adult and putting up with all my stages.

In closing I would like to leave my fellow students with a quote by Max Isaacson "God said build a better world, and I said what am I to do. And God said "you can build a better world if you just build a better you".

I love you U.H.S and I will miss you

*The World has Need of you.
If it's ever so small the part you take,
The world has need of you
Be it big or little the effort you make,
The world has need of you.
If it's only a thought you give by the way,
If it's only love's word you pause to say,
It's a part that nobody else can play,
So the world has need of you.*

You will see me chillin' with Monica, Reyne, Erin, Marion, Rai, Co, Sha, Davionne, Cephus, Kenya, Marshal, Lissette, and Denise. You have made my stay here at U.H.S . . . "VERY IMPRESSIVE"!

For the two most important and special people in my life, Mom and Dad, I say this: Thank you for showing me the greatest love of all. From you I inherited my strength, wisdom, and compassion for others. At my most depressing times you "lift me up". I feel blessed to have received you. I love you dearly.

To my "Big Bro" Khalif: I am proud of you. It gives me joy to be able to look up to you the way that I do. Thank you for being the excellent role - model that you are.

Nate: You came into my life like a flicker of light and showered me with love and caring. With yourself you brought a special joy and fulfillment to my life. I love you and thank you for being a friend.

To my best friend Monica, also known as "My Melody Brown": We grew up together and you stuck with me through thick and thin. I treasure our special bond. And even though we are now miles away, we are close at heart . . . "Friends Forever"!

MESSAGE FROM THE PRESIDENT

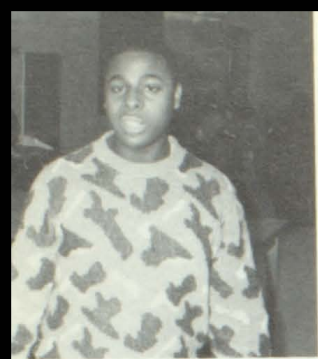

I am greatly honored to be graduating from University High. As president, I have been able to become acquainted with all of my classmates. The most outstanding feature of the class of 1988 is that we all combine to form a microcosm of unique personalities.

As I look back in the past and remember us as freshman; we associated, communicated, and related to one another as friends and students. I have recently noticed a positive change in our attitudes, outlooks on life, and personalities. We can thank our teachers for that improvement because they guided us throughout our high school years.

In the future, I ask the members of the class of 1988 to use their potential to the best of their abilities in whatever goals they pursue. Just remember, "Life is what you make it." May happiness and success be Yours.

FINE ARTS - HISTORY AND

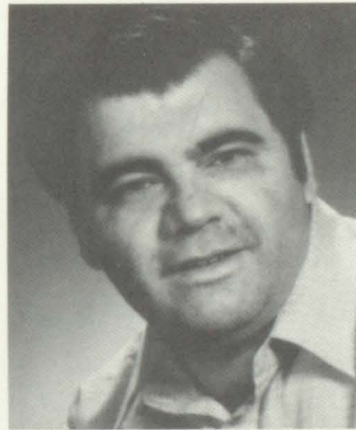

James White
Dept. Chairperson

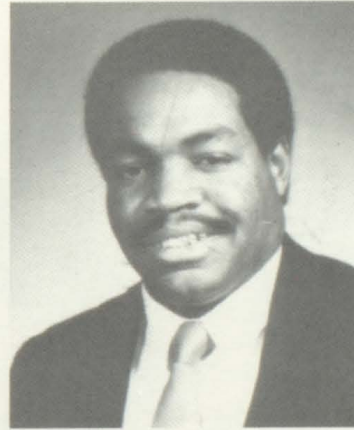

The University High School history department offers a comprehensive program that encompasses grades 7-12. Some of its unique features include a ninth grade Art History/World History course. The Western Civilization course was developed in conjunction with Seton Hall University as a six credit college course. Our Law In Action Classes developed a Mock Trial Team that has become a leading contender each year for County and State honors and is also involved in the National Lawyers Mentor Program. In addition Sociology was constructed as a major research course centered around the Close-Up Program. Students study areas of National concern and participate in trips to Trenton and Washington D.C., to meet and discuss these problems with government officials and elected representatives. An Advance Placement American History course is new this year. All students are required to take U.S. I & II and seventh and eighth grade must complete Civics and World Geography.

To Mrs. P. Richardson

Thank You

"Don't just learn to fly, learn to SOAR", the philosophy of Mrs. P. Richardson, advisor of the eighth grade Class of '88'. She feels that every member of our graduating class should try hard to succeed at learning how to Soar. Although, Mrs. Richardson is new to this school, she doesn't appear as if she is.

We as a whole, would like to acknowledge the fact that Mrs. Richardson has been a great inspiration to each and every student in our class. There were times when we thought that everything was going to be a disaster, but Mrs. Richardson changed it all and told us that we should work hard to make the best of it. We also want Mrs. Richardson to know that we appreciate every little thing she has done for us the past two years.

Friends Mean So Much

Students here at University High are quick to make lasting and meaningful friendships. Since the students are primarily interested in academics this school provides an appropriate environment for meeting and discussion. We here at University are proud of the unity and devotion of our students.
